Health & Medical Services After Hours
when your GP is closed

An Australian Government Initiative

Achieving together - better health, better care

www.findahealthservice.com.au

Sydney North Health Network works with doctors and health providers to help coordinate After Hours health and medical services for the residents of Sydney's north.

AFTER HOURS COVERS:

- ◆ After 6pm and before 8am weekdays
- ◆ Saturdays before 8am and after 12noon
- ◆ Sundays and public holidays

There are 3 ways to access a health service After Hours:

Contact your GP / Pharmacist about their after hours health services.

Visit findahealthservice.com.au to search for a GP / Pharmacy **OPEN NOW!**

For 24 hour health advice call Healthdirect: **1800 022 222**

For translation services call **131 450**

When you click on the following link www.findahealthservice.com.au you will be taken to the **National Health Services Directory** where you can search for After Hours GPs, Pharmacists, Emergency Departments, Hospital Services and Allied Health.

AFTER HOURS HOME VISITING DOCTOR SERVICE

In the After Hours period you can phone for a home visiting doctor service that will visit you or a member of your family in your home. Some services offer bulk billing while others require a gap payment. Some Private Health Insurers may also provide a free GP-to-home service to their members.

- ◆ **National Home Doctor Service: 137425**
- ◆ **Sydney Medical Service Co-operative limited: 1300 466 347**
- ◆ **GP2home: 1800 472 4663**
- ◆ **myhomeGP: 1300 968 737**

Following a home visit the attending doctor will fax or email a medical report to your usual General Practice. If your health condition requires continuity of care in the After Hours period, relevant Information can be disclosed to the home visiting service, by your GP, with your consent.

HOSPITAL IN THE HOME

Hospital in the Home is clinical care that reduces the length of stay in hospital or in some instances can avoid an admission altogether. A range of conditions can be effectively and safely managed without a person needing to stay in hospital. Some of the benefits include:

- ◆ The ability to remain in the comfort of own home;
- ◆ Not having to adjust to the hospital's routine - you can eat your own food and sleep in your own bed;
- ◆ Reduced risk of adverse events from hospital admission;
- ◆ Family and friends are able to visit when it suits you.

Hospital Rapid Response teams are also available. They provide clinical advice and support to GPs and Residential Aged Care Nurses to avoid hospitalisation or fast track hospital admissions for older people. Speak to your GP about a referral or to find out more about these services.

IF YOU NEED A TRANSLATOR:

1. Contact the translating and interpreting service on **131 450**.
2. Give them your language.
3. Tell the translator the name and phone number of the health service you want to connect with.
