

# GP Educational Dinner Invitation

## Management of Heavy Menstrual Bleeding

**Wednesday, 29 November 2023 | 6.30 – 8.30pm**

Cavallino Ristorante  
1-3 Yulong Avenue  
Terrey Hills NSW 2084

### SPEAKERS

#### Dr. Talat Uppal

An Obstetrician and Gynaecologist who works at the Northern Beaches and Hornsby Ku-ring-gai Hospitals as a Visiting Medical Officer. She holds a DDU from Australasian Society of Ultrasound in Medicine. She is the Director of Women's Health Road and has set up an innovative integrated multidisciplinary model with a strong patient centred approach to women's health care. Her niche interest is the management of women with abnormal menstrual bleeding and is involved in research to support awareness and management of heavy menstrual bleeding.

#### Dr. Lisa Clarke

A specialist Haematologist who cares for patients with non-malignant and malignant conditions. She holds dual fellowships with the Royal Australasian College of Physicians and the Royal College of Pathologists Australasia. Lisa is passionate about non-malignant Haematology with special interests in Obstetric Haematology, Patient Blood Management and Thrombosis and Haemostasis. She works at Sydney Adventist Hospital and also works at the Australian Red Cross Lifeblood, as a Transfusion Medicine specialist. Lisa completed a Masters of Clinical Epidemiology and has been published in the areas of Iron deficiency, Inherited bleeding disorders and Obstetric patient blood management
